Health check-ups for your employees

Get certainty about the health status of your employees in just one day. Get your employees in top shape. Rely on many years of experience, professional excellence and the use of state-of-the-art medical technology. Benefit from our excellent price/performance ratio.

WE ARE HERE FOR YOU! Phone: +49 40 3691 4248

The perfect fit for every company

The objective of our in-house check-up concept is to medically analyze all important physical functional areas, to check functionality and to identify possible health risks at an early stage. With our three check-up levels for your employees, we guarantee sustainable prevention based on effective medical diagnostics and advice.

BASIC

Level 1

Quick Check-up

Compact basic screenings under 30 minutes with specialist consultation

VITAL

Level 2

Allround Check-up

Compact internal-orthopedic basic screening with specialist consultation or physician discussion

VITAL+

Level 3

Allround-Plus Check-up (Optionen 1&2)

Fixed basic screening as well as optional, module-based focus screenings per objective

The check-up contents

2. Module: Heart attack risk
3. Module: Stroke Risk
4. Module: Ortho-Physio
5. Module: Skin Cancer Prevention

*The detailed overview of the additional modules is available upon request as part of our offer.

Comprehensive prevention is our top priority:

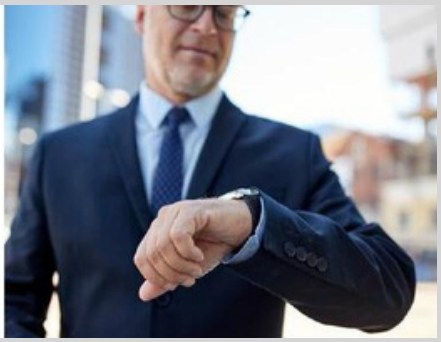

Flexible & billable

You have 3 levels to choose from and can define the modules individually for your company. All services are 100% billable.

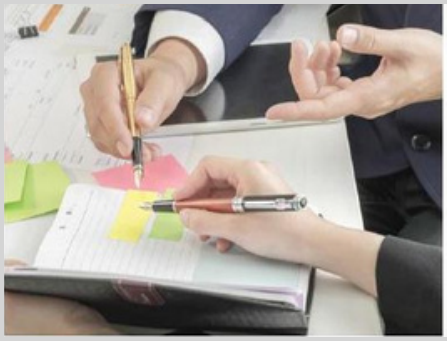

Digital findings file

Our online portal corphealth.io supports you in the scheduling and anamnesis up to the personal health report.

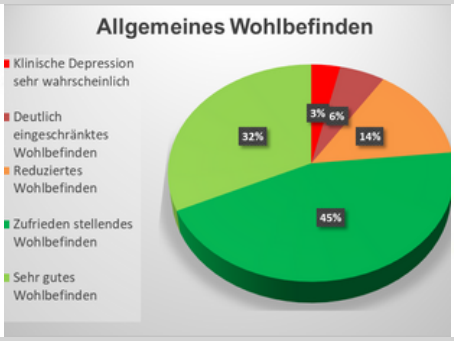

Efficient & confidential

Your employees save time because they receive high-quality medical services directly and in strict confidence at your site.

360° Management

We see ourselves as a full-service provider. We take over the entire organization, logistics and management of the check-ups for you.

Company Report

You receive a management report on employee satisfaction, participation and an aggregated, anonymized overview of the health status in your company.

Consulting & Support

All employees are given detailed advice on their results, health measures are suggested or, in the case of abnormalities, they are referred directly to the nearest specialist.

Companies that trust us:

Largest German competence network: Currently 26 locations with professorship-level physicians

The preventive medicine health centers offer you the best level of quality nationwide in terms of diagnostics, participant care and specialist consultation.
