Occupational Health Insurance Check-ups for Companies

- A customized array of services for occupational health examinations and preventive care, delivered with the utmost quality and professional management for over six years.
- A nationwide network of 26 collaborating health centers and mobile medical teams for occupational health check-ups and preventive examinations conducted directly at the customer's location.
- Digital health management and contemporary appointment scheduling through the Corphealth.io portal, encompassing a complete end-to-end service from invitation to billing.

WE ARE HERE FOR YOU! Telephone: +49 40 3691 4248

The premier partner for private insurance in Germany: We provide customized preventive check-ups for your occupational health insurance policy.

QUALITY

Our teams consist of medical specialists and physicians with extensive experience. By integrating our diverse expertise with a strong sense of empathy, we provide your corporate clients with the ideal combination for optimal healthcare through medical diagnostics and consultations via our occupational health examinations. We empower your corporate clients to access customized health solutions that actively enhance health and well-being.

SATISFACTION

CorporateHealth provides insurers and insured individuals with an optimal healthcare solution: an occupational health insurance policy combined with a customized healthcare package, all from a single source. This approach enhances the satisfaction of all stakeholders. Furthermore, occupational health insured individuals enjoy superior quality and a high standard of service that is both modern and straightforward. CorporateHealth's Corphealth.io portal complements this exceptional service, facilitating contemporary and personalized health management for every occupational health insured individual.

USABILITY

Through the digital health portal Corphealth.io, we provide occupational health insured individuals with comprehensive services, encompassing appointment scheduling, medical history collection, personalized health reports, and subsequent billing. A distinctive feature of CorporateHealth is that the insured individual is only required to pay once the insurance has processed the reimbursement, eliminating the need for upfront payments. With our extensive network of 26 collaborating health centers and nationwide teams of physicians for occupational health check-ups or preventive examinations conducted directly at the corporate client's location, we ensure that preventive examinations are available nationwide, conveniently and easily accessible at all locations.

Advantages Overview

FOR INSURERS

- Compelling supplementary offer for occupational health insurance via our customized pension solutions.
- Streamlined billing directly with the insured or the insurer.
- GOÄ-compliant invoices featuring transparent rate increases – comprehensive cost coverage, ensuring satisfaction among insured individuals.

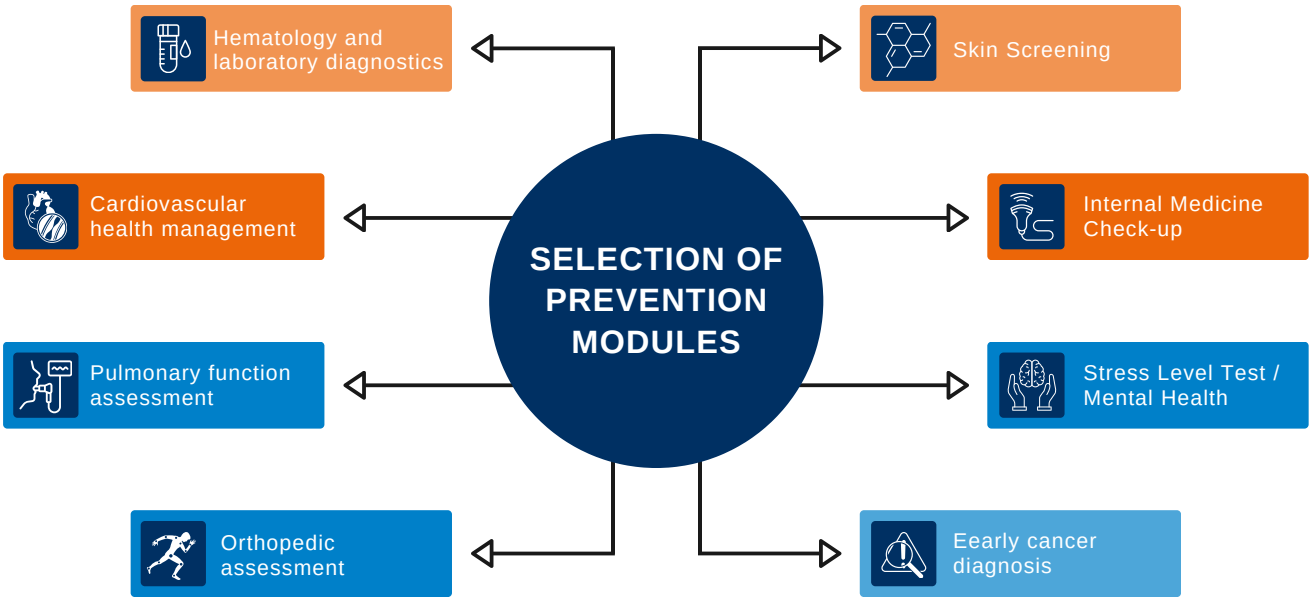

FOR CORPORATE CLIENTS

- Enhanced employer appeal via occupational health care and an extensive preventive medical assessment for employees and management.
- Enhancing employee satisfaction and productivity through proactive occupational health assessments.
- Flexible access to occupational health check-ups is available at our 26 partner health centers as well as directly on-site at the company.
- Certified diagnostics in accordance with the standards set by the German Society for Sports Medicine and Prevention (DGSP) ensure the highest quality benchmarks for all preventive occupational health examinations.

Modular preventive examinations through the occupational health insurance policy for employees and management.

The examinations conducted at our partner centers or on-site at the company encompass, as necessary, the following preventive elements:

CORPHEALTH.io
Intelligent. Secure. Personalised.

As a comprehensive service provider, we manage the entire organization and execution of the preventive occupational health examinations. Through our digital health portal, Corphealth.io, employees can access all necessary information: from appointment scheduling and medical history to personalized health reports and electronic billing.

Largest German expertise network: 26 cooperating locations with physicians at the professor level.

With our extensive nationwide network of 26 collaborative preventive medicine health centers and their medical teams, we ensure the professional execution of in-house check-ups within the respective company. The affiliated medical directors are recognized as leading experts in preventive medicine in Germany.
The quality-assured diagnostics at all health centers are certified in accordance with the stringent requirements set forth by the German Society for Sports Medicine and Prevention (DGSP). This certification ensures that the medical teams adhere to the highest standards for corporate health assessments.
